JANUARY 13, 2009

nanofinder NT2000 PetFinder from Nanonavi -- GPS Pet Collar

You can say goodbye to bulky GPS collars to locate your wandering pet. The **nanofinder NT2000 PetFinder** is a small device to track your pet's whereabouts with built-in GPS.

The device functions as a geo-fence collar as well to contain your pet where you want them. Works in conjunction with nanonavi software online or on your mobile device.

nanofinder NT2000 PetFinder available February - March 2009.

via [ChipChick](#) reporting on CES 2009.
